⚠ WARNING

To reduce the risk of fire or electric shock, do not expose this product to rain or moisture

Do not use or store in the following locations
- Locations subject to water or rain
- Moist or humid locations (near a bath or shower, or on a wet floor)
- High temperature locations (in direct sunlight, near heating equipment)
- Locations subject to salt damage
- Excessively dusty locations

Turn the power off if an abnormality or accident occurs
In the following situations, immediately turn off the power, disconnect the AC adapter from the AC outlet, and contact your dealer.
- If the AC adapter, power cord, or plug is damaged
- If smoke is emitted or an abnormal odor is noticed
- If liquid or a foreign object enters the product
- If an abnormality or malfunction occurs in the product

Do not plug or unplug the AC adapter with wet hands
You risk electric shock.

Do not drop or subject to strong impact
Do not drop this product or subject it to strong impact.

Do not disassemble
Do not disassemble or modify this product and AC adapter.

Do not damage the power cord
Do not excessively bend the power cord or damage it. Do not place heavy objects on top of the power cord. Doing so may damage the power cord, causing fire or electric shock.

Use the included AC adapter
Use only the included AC adapter. Use the adapter with the voltage that it specifies.

⚠ CAUTION

Do not place the product in an unstable location
Doing so may cause the product to overturn, causing personal injury.

Do not sit or stand on the product, or place heavy objects on it
Doing so may damage the product.
You should also avoid applying excessive force to the buttons, knobs, display, and input/output jacks. Doing so will cause malfunctions.

Do not use the product at a high volume for an extended time
Using speakers or headphones at high volume for an extended time will damage your hearing.

Grasp the power plug when connecting or disconnecting
When connecting or disconnecting the AC adapter from the product, you must grasp the plug rather than pulling the power cord.

Disconnect the power plug from the AC outlet during lightning storms or when unused for long periods of time
Failure to do so may cause electric shock, fire, or malfunction.

Disconnect all connections before moving the product
Failure to do so may cause damage to the power cord or cables, or may cause people to trip over the cables.

Handle the product with care
Take care that your hands or fingers are not injured by corners, edges or openings of the product.

Keep small parts out of reach of children
Keep small parts out of reach of children who might accidentally swallow them.

Supervise or give guidance when children use this product or when children are present around this product
Always take care that children are not injured with this product.

FCC INFORMATION
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
    – Reorient or relocate the receiving antenna.
    – Increase the separation between the equipment and receiver.
    – Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
   – Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
