EFNOTE 3 / 5 / 7 series

Firmware Update Guide

Firmware update procedure for EFNOTE 3 / 5 / 7 Series

SYSTEM REQUIREMENTS

PC/Mac

Computer equipped with USB port (USB 2.0 high speed or faster)

os

Microsoft Windows 10 Mac OS 10.13 (High Sierra), or newer

- * For the detailed supported OS information, refer to the EFNOTE website (p. 5).
- * For Windows PC, Intel chipset is recommended.
- * A virtual environment is not supported.
- * Windows running on a Mac is not supported.
- * The USB connectivity is not guaranteed for all environments. Some computers may not be fully compatible.

Checking the current firmware version

Menu > Settings > Option tab > Info

<u>Updating</u>

WARNING

DO NOT SHUT THE SOUND MODULE POWER OFF WHILE UPDATING.

If the power is cut off during the update, there is a risk that the sound module will never turn on. In this case, you will be charged for the repair.

1 Turn the sound module on, and connect the sound module to your PC/Mac with a USB cable.

* A micro-USB cable (not included) is needed to connect.

2 Open the "EFNOTE Update Tool" app.

The app is available on the EFNOTE website. (p. 5)

Windows

If the "Windows protected your PC" message is popped up, click "More info" and "Run anyway".

3 The app starts connecting to the sound module.

When the connection is established, the status shows "Device connected.", and the sound module shows following screen.

* In case failed to connect, guit the app and try again from the step 2.

Firmware Update

DO NOT SHUT POWER OFF WHILE UPDATING

After update completed,

1

2

unplug the power and plug it again.

Then turn power on. The power knob will blink for a minute before the screen appears.

4 Click [File...] , and select the new firmware file "EFD-x-FIRM-Vxxx.rom" that you downloaded.

* Unzip the downloaded zip file, first.

* If the file you selected is not supported with the sound module, following screen is popped up. Select a correct file.

6 The confirmation screen is popped up.

Click [Yes] to proceed.

5 Now, ready to update. Click [Execute].

Confirmation	8
Are you sure to update? Do not shut power off while updating.	
YES NO	

The update starts.

- * Do not shut the sound module power off while updating.
- * Do not try to cancel the update.
- * If you got any trouble with your computer during the update, keep the sound module as it is, and restart your computer. Then, try again from the step 2.
